

Polygon

CONSTRUCTION DRYING AND TEMPORARY CLIMATE CONTROL FOR SUMMER MONTHS

Always By Your Side

Course Agenda and Learning Topics

1. This course is designed to introduce you to different applications of temporary climate solutions for the construction industry, from accelerating dry time of coatings and compounds, to ensuring successful installations of finish materials.
2. We will show you specific solutions for your projects or moisture plan and how these solutions can help keep your project on schedule.
3. We will discuss how to plan for temporary climate control so that you are ahead of the game.
4. By the end of the presentation, you will understand how through a partnership with Polygon, you will be able to make educated decisions about achieving optimal temperature and humidity for your project.

Target Audience

General Contractors - to include: Project Mangers, Project Executives, Estimators and Superintendents.

March 21, 2019

12:00 pm - 1:00 pm **Lunch will be provided**
